ARIZONA PROGRAM DESIGN AND LOGIC MODEL (AZLM) MATRIX*

The AZLM Matrix should be completed using brief summaries from the written responses to Tasks 1-5 of the RFGA.

◄─────────────────────────────── LINK ───────────────────────────────►

Needs/Resources	Goals & Objectives	Strategies/Approaches	Implementation Plan	Evaluation

➢ **Problem statement**
➢ **Target population and geographic area**
➢ **Internal and external team members**
➢ **Applicable risk and/or protective factors/or assets**
➢ **Other resources that are being directed to this problem and target population**
➢ **Current related collaborations**
➢ **Examples of prior related experience**
	➢ **Goal statement**
	➢ **For each goal statement list objective(s) including:**
	  1. **What will change**
	  2. **The degree of change**
	  3. **The date by when the change will occur**
		➢ **Description/name of intervention(s)**
		➢ **How intervention(s) will address problem/ needs and will accomplish goals and objectives**
		➢ **Evidence of community readiness to implement intervention**
		➢ **Scientific theory or evaluative data that supports your intervention**
		➢ **Adaptations to intervention, if applicable**
		➢ **How strategies address risk and/or protective factors**
		➢ **Evidence of cultural competence, age appropriateness and gender responsiveness to target population**
			Steps needed to activate intervention(s) including but not limited to:
			
			➢ **Hiring and training staff**
			➢ **Acquisition of program materials**
			➢ **Recruiting participants/clients**
			➢ **Identification of barriers and strategies to overcome them**
			➢ **Process objectives used to measure effectiveness of implementation.**
				Description of Process Evaluation to measure effectiveness of the implementation:
				
				➢ **Responsible party**
				➢ **Assessment tools**
				➢ **Data security system**
				
				Description of Outcome Evaluation to measure if goals and objective have been achieved:
				
				➢ **Assessment tool**
				➢ **Timeline and responsible party**
				➢ **Data collection and analysis plan**
				➢ **Quality improvement plan**
				➢ **Data security system**
